LISA FIRMIN

1974 graduate of Thomas Jefferson High School
Major: **Medical Office Administration**

"After much thought, I decided to return to college and complete my long term goal that I began in 1975. I chose Lamar State College-Port Arthur because of the smaller classes; therefore the professors are able to provide individual assistance to each student. This setting has been an advantage for me as a mature student. I have made new friends, gained new knowledge and I am thoroughly enjoying college life. *My mom always told me* "Whatever you learn is yours forever," therefore; I encourage everyone regardless of your age to achieve your higher education at LSCPA. Dreams can come true with hard work and with LSCPA's team cheering you on. LSCPA is a real bargain. I am having the time of my life.

JORDAN O. JAMES

2006 graduate of Memorial High School
Major: **Academic Studies**

"I decided to stay home and attend Lamar-Port Arthur because my housing was not approved in time at another university. I am glad I stayed home because here at Lamar-Port Arthur the teachers know my name and I am still learning to socialize on a college level. I am experiencing college life without the added stress of living in a dorm. I actually attended Lamar-Port Arthur as a senior at Memorial High School as a co-enrollment student, so I was already familiar with the campus and since I have been attending here I am sure that no matter what the future holds I will be prepared. Thank you, Lamar State College-Port Arthur."
