

# Power Pack Ministries

Founded in 1990 in Williamsburg

## ARTICLE SUBMITTED

When Power Pack Ministries, located on Wolf Creek River Road, Williamsburg, began in 1990 the first focus was to minister to the people in the community through radio and television. One of the main goals was to assist as many people as possible by telling them about God and how he could change their lives if they would only put their trust in him.

The ministry grew very rapidly with many lives being changed. Out of the original focus grew the ideal that God wanted them to find a physical location where many could gather to praise God through scripture, song and prayer. A place where everyone could feel like they were someone.

Since there were no funds to rent a space for the new gathering, Pastor Billy Joe Lowe and his wife Geneva offered the use of their basement until a place could be found. This space was soon transformed into a church atmosphere, accommodating a hundred or more, during the several services that took

place each week. Many people of all ages were drawn together for the services, but the greatest sight was to see the number of young people that came wanting a closer walk with God.

A marvelous spiritual experience began to unfold right in the midst of this growing church. They invited homeless people off the street, drug addicts and all those who were oppressed and bound to come and see what the Lord had done for their members and what he could do for them. God used all of their gifts to help bring peace and life changes to those who felt lost and unloved.

As the weeks passed, the Holy Spirit was leaving footprints all over this congregation. As the numbers grew, the steps to building a real church moved quickly from the back burner straight to the front of the line.

For the congregation at Power Pack Ministries, a very large, faith-filled journey began to take shape rapidly as God placed endless challenges at their feet. Once God heard their resounding, "Yes, we are ready to build!" he set them on the path of accom-

plishment that was truly nothing short of a miracle. God had already gone before them and laid out the perfect ground plan for the people to unfold, without any earthly bank account to fall back on.

At first glance, the plan looked hopeless, how could even a faith-filled group start building a new church without ready funds? Then we realized we had all the gifts and talents necessary to fulfill the promise. Each portion of the church became a reality as the master builder doled out the building tasks to match the people's talents and gifts.

The new church was dedicated on January 12, 2002. People came from miles around, in every direction, to see what the miracle working power of the Lord had done for us. God's goodness is always available at Power Pack Ministries for all who need help in their lives. God has truly proved himself to be God at Power Pack Ministries and he keeps showing his love for us on June 1, 2009 the church was paid in full and a debt-free celebration took place on July 4, 2009.
