## The Huntsville Item!

Your **local** community newspaper, The **Huntsville Item**, has been around for, oh, a few years or so.

And by a few years, we mean **155** of 'em. That makes it one of the oldest daily newspapers **in the state** of Texas. In fact, it's the second-oldest continuously published newspaper in the state.

With a circulation of about **7,000 daily**, the Huntsville Item touches all parts of Walker County, from New Waverly to Riverside.

The Huntsville Item covers tons of local news, including **everything** from garden clubs to city government, car wrecks to movie reviews, school news to hard news.
